

*This message is an update to the RMG-RIO Transition Message 1, dated 30 June 2014.*

As we discussed in the previous transition ARCNet message, the BIMAA footprint that you're familiar with today is changing as we establish the Integration Cell within HQ RIO by December 2014. This new capability will enhance operations through service standardization.

The next phase of this transition is the shifting of BIMAA functions to the detachments. **Therefore, effective 11 August 2014, BIMAA offices will close and you are directed to work with your unit reserve coordinator (URC) and, if required, then your servicing detachment.**

In addition to your URCs, please utilize the following resources:

1. The MyPers web site <https://gum-crm.csd.disa.mil/app/login/redirect/home>
2. The HQ RIO web site <http://www.arpc.afrc.af.mil/library/rio/index.asp>
3. The Total Force Service Centers at (800) 525-0102 or <http://www.arpc.afrc.af.mil/services/index.asp>
4. Your servicing Military Personnel Section (MPS)
5. Your servicing detachment staff

Your Detachment Program Manager will provide additional guidance outlining the support available to you.

While this new way of doing business presents challenges, it also provides many opportunities to review and improve how we support you. We will keep you informed on the Integration Cell's progress as we continue this journey.

There's no doubt, we are going through a great amount of change. Together, I am confident that we will adapt to these changes, thrive in this new environment and continue to succeed.

Thank you for your patience, feedback, and support!

CHRISTOPHER E. CRONCE, Colonel, USAF  
Commander, HQ Individual Reservist Readiness and Integration Organization
