Volunteer Reserve System (VRS), has been revised to enhance usability for the Volunteer and Requisitioner. This newer version continues to provide service to Reserve/Guard members for short-term and funded assignment vacancies. Force Generation Center (FGC) has management control of VRS. Volunteers should address specific questions concerning the vacancy to the POC listed. Should you have questions regarding the process for VRS, please email the FGC/FGF FARS at afrc.fgc.far@us.af.mil.

Users will notice several new key features in this version, all designed to make the matching process more efficient. Volunteers can search for opportunities by a variety of factors (specific dates, ranks, AFSCs, locations, keywords). Volunteers can track application status within VRS. Supervisor permission is the first step in the application process. Emails to the volunteer are sent during the final steps of the application process to offer acceptance.

VRS is voluntary and Requisitioners are responsible to ensure each listing reflects a current requirement. In addition, Requisitioners are responsible for the validity and accuracy of each posting.
