Subject: Pending AGR Process Actions (SUSPENSE: 1 July)
Date: Sunday, June 16, 2024 11:10:44 PM

BLUF: At AGR Management, our unwavering commitment to transparency remains steadfast. As part of our continuous efforts, we make it a priority to inform stakeholders about any program process modifications at least 60 days prior to their implementation. In this communication, we will specifically discuss pending actions related to FY23 assignment applications and the acceptance/hiring of selections.

Pending Selection Acceptances/Hiring Documents

We've noticed a growing number of members not accepting AGR (Active Guard Reserve) position selections, leading to increased workload. To tackle this, we're streamlining processes through the EVOLVE initiative and updating our assignment timeline.

Our current timeline allows members 14 days to accept an AGR (Active Guard Reserve) position and submit the necessary hiring documents. However, effective July 1, 2024, any assignment applications pending acceptance and/or hiring documents for 60 days or more will be automatically closed.

Billet Owners will receive communication on how to proceed in such cases. All new selection notifications must be accepted, and all hiring documents must be received within 60 days from the selection notification. AGR Management will address special circumstances with applications on a case-by-case basis.

Pending FY23 Assignment Applications

During our EVOLVE journey, we've realized the importance of tidying up our application data. Presently, we have approximately 58 pending applications from FY23. As we transition into the new year without certified orders, selectees will be notified that they need to finish all

necessary assignment tasks by July 1, 2024, to secure certified orders. Failure to do so will lead to termination of their application. Subsequently, we'll reach out to the Billet Owner to reassess the position's priority within their respective NAF or equivalent.

Chief, Assignments Division
