AIR RESERVE PERSONNEL CENTER

31 May 23

MEMORANDUM FOR ALL RESERVE & GUARD AIRMEN

FROM: ARPC/CC
18420 E. Silver Creek Ave, Bldg 390
Buckley SFB CO 80011

SUBJECT: May Update on Digital Transformation

Earlier this month, the Air Force officially transitioned personnel programs from myPers to myFSS and MyVector. Throughout this migration, I have been incredibly proud of our dedicated ARPC technicians working through the data migration to ensure continuity of tickets and help make this transition as seamless as possible for our customers. As technicians work on the new systems and guide customers, they are also actively providing feedback to developers for improvements and enhancements.

Our teams also rely on feedback from Airmen using the program to help shape the future of myFSS and MyVector and identify ways we can better service the field. One concern that was brought to our attention is exactly where to find various programs, knowledge articles, and personnel service delivery guides. As a reminder, the attached graphic provides an overview of where the different personnel programs are housed. For more specific questions, Airmen are encouraged to use the search function on myFSS. While this function in myFSS is more robust, it still helps to start the search with "AFR/ANG". This will filter the results to Reserve and Guard specific knowledge articles. Additionally, some program guides are not available yet as our technicians develop new instructions applicable to the myFSS and MyVector platforms. We appreciate your patience while this transition occurs.

Our team is actively working on future enhancements for some of our spotlighted programs, which includes Reduced Retirement Pay Age calculations, AGR Assignments and AGR Continuation Decisions. As we work through these system issues, we understand that they may put a strain on some members with urgent inquiries. We highly recommend those Airmen work with their servicing FSS and commanders to bring these situations to our attention so we can assist directly.

As the ARPC commander, my goal is to be as transparent as possible about program features that could have pay and benefit impacts to our members. My team will also continue publishing updates to the [ARPC website](#) and Facebook page with program updates. For more specific information about the transition, please visit your FSS or CSS. Individual Reservists, please reach out to your detachment with questions. Once again, thank you for your patience and understanding as we continue along this digital transformation journey.

JENNIE R. JOHNSON
Brigadier General, USAF
Commander
