Topic: Migration of the Reduced Retired Pay Age (RRPA) applications to myFSS is complete

Applicable to: Air National Guard and Air Force Reserve Airmen

BLUF: Migration of the Reduced Retired Pay Age (RRPA) applications from vPC/Remedy to the new myFSS platform is complete.

HQ ARPC received feedback from the field that the RRPA application in the new myFSS platform does not mirror what is in vPC/Remedy. Our technicians investigated this further and determined that myFSS now accurately displays the correct information, removing the need to reference vPC.

Moving forward, myFSS will now be the authoritative source for RRPA calculations. HQ ARPC Retirement Technicians will no longer perform comparison audits between vPC/Remedy and the myFSS RRPA application.

As a reminder, AF Reserve and Air National Guard members do not need to attach qualifying orders unless there is a discrepancy in data or the RRPA application reflects an Orders/PCARS line as “Potentially Qualifying”.

During the recent development of the myFSS RRPA application, myFSS was linked with AROWS-R/G to automatically qualify/non-qualify periods of active-duty service within the RRPA application. This has led to a large savings of time for both service members and HQ ARPC retirement technicians.
